

## HQSYN16 - Task #3996

Task # 3677 (New): RA3b - Phonetically justified parameters (spectral tilt, ...)

Task # 3697 (Assigned): Electromagnetic articulography (EMA) based research

Task # 3965 (Closed): EMA - Radka Mašková

### Data collection and pre-processing

27.07.2016 10:19 - Matoušek Jindřich

|                                                                                         |                                                             |                        |            |

| <b>Category:</b>                                                                        |                                                             | <b>Estimated time:</b> | 0.00 hour  |
| <b>Target version:</b>                                                                  | RA3: Phonetically justified parameters for speech synthesis |                        |            |
| <b>Description</b>                                                                      |                                                             |                        |            |
| Collect and prepare data so that they can be used for next processing (voice building). |                                                             |                        |            |

### History

#### #1 - 29.07.2016 09:11 - Matura Martin

- Due date changed from 29.07.2016 to 28.08.2016
- Status changed from New to Assigned
- % Done changed from 0 to 50

The first part of recorded data was annotated and waves were resampled and now are ready for next processing.

#### #2 - 09.01.2017 13:08 - Matura Martin

- Status changed from Assigned to Resolved
- % Done changed from 50 to 100

#### #3 - 15.01.2017 21:06 - Matoušek Jindřich

- Status changed from Resolved to Closed
